## INTRODUCTION

The Things Mother Used To Make consist of old fashioned recipes, which have been for the most part handed down by word of mouth from one generation to another, extending over a period of nearly one hundred years. The author, a New England woman, has during her life tested out in her own kitchen the greater part of these recipes, which represent the best cookery of those times.

This material was originally published in *Suburban Life*, where it obtained such recognition as seemed to warrant its preservation in book form. The original material has accordingly been amplified, and it is here presented as one of the volumes in the series of Countryside Manuals.

## AUTHOR'S FOREWORD

Good food depends as largely upon the judgment of the cook, as upon the materials used. These recipes and Household Hints are written very plainly, for those who have had no experience, no practice and possibly have little judgment.

They are very simple, not expensive, and if followed closely, will ensure success. It is the hope of the writer of this book that the young and inexperienced housekeeper may find it a real help.

L. M. GURNEY.

## THINGS MOTHER USED TO MAKE

### BREADS

#### Bannocks

1 Cupful of Thick Sour Milk	2 Cupfuls of Flour
1/2 Cupful of Sugar	1/2 Cupful of Indian Meal
1 Egg	1 Teaspoonful of Soda
	A pinch of Salt

Make the mixture stiff enough to drop from a spoon. Drop mixture, size of a walnut, into boiling fat. Serve warm, with maple syrup.

#### Boston Brown Bread

1 Cupful of Rye Meal	1 Cupful of Sour Milk
1 Cupful of Graham Meal	1 Cupful of Molasses
1/2 Cupful of Flour	1/2 Teaspoonful of Salt
1 Cupful of Indian Meal	1 Heaping Teaspoonful
1 Cupful of Sweet Milk	of Soda

Stir the meals and salt together. Beat the soda into the molasses until it foams; add sour milk, mix all together and pour into a tin pail which has been well greased, if you have no brown-bread steamer.

Set the pail into a kettle of boiling water and steam three or four hours, keeping it tightly covered.

### Brown Bread (Baked)

1 Cupful of Indian Meal	1 Cupful of Molasses
1 Cupful of Rye Meal	(scant)
½ Cupful of Flour	1 Cupful of Milk or Water
	1 Teaspoonful of Soda

Put the meals and flour together. Stir soda into molasses until it foams. Add salt and milk or water. Mix all together. Bake in a tin pail with cover on for two and a half hours.

### Coffee Cakes

When your dough for yeast bread is risen light and fluffy, cut off small pieces and roll as big as your finger, four inches long. Fold and twist to two inches long and fry in deep fat. Serve hot with coffee.

### Corn Meal Gems

2 Cupfuls of Flour	1 Teaspoonful of Baking Soda
1 Cupful of Corn Meal (bolted is best)	1 Egg
2 Cupfuls of Milk	½ Cupful of Sugar
2 Teaspoonfuls of Cream of Tartar	½ Teaspoonful of Salt

Stir the flour and meal together, adding cream of tartar, soda, salt and sugar. Beat the egg, add the

milk to it, and stir into the other ingredients. Bake in a gem-pan twenty minutes.

### Cream of Tartar Biscuits

1 Pint of Flour	1 Teaspoonful of Soda
2 Teaspoonfuls of Cream of Tartar	$\frac{1}{2}$ Teaspoonful of Salt 1 Tablespoonful of Lard

Stir cream of tartar, soda, salt and lard into the flour; mix with milk or water, handling as little as possible. Roll and cut into rounds. Baking-powder can be used in place of soda and cream of tartar.

### Crullers

Use the recipe for doughnuts, adding one egg and a little more butter. Roll a small piece of the dough to the size of your finger, and eight inches long, double it, and twist the two rolls together. Fry in boiling fat.

### Delicious Dip Toast

Cut slices of bread, one-half inch thick; toast each side to a delicate brown. Dip these into hot, salted milk, letting them remain until soft. Lay them on a platter and spread a little butter over each slice. Take one quart of milk more or less according to size of family; heat in a double boiler, salt to taste. Wet two tablespoonfuls of flour with a little water; stir until smooth, and pour into the milk when boiling. Make this of the consistency of rich cream; add

a piece of butter the size of a walnut, and pour over the toasted bread. Serve hot.

### Doughnuts

1 Egg	1 Teaspoonful of Soda
1 Cupful of Milk	Piece of Butter the Size
1 and $\frac{1}{3}$ Cupfuls of	of a Walnut

	to roll soft

Beat the egg and sugar together and add the milk and butter. Stir the soda and cream of tartar into the flour, dry; mix all together, with the flour and salt. Cut into rings and fry in deep fat. Lay them on brown paper when you take them from the fat.

### Fried Bread

After frying pork or bacon, put into the fat slices of stale bread. As it fries, pour over each slice a little milk or water and salt to taste, turn and fry on the opposite side. This is a very appetizing dish.

### German Toast

1 Cupful of Milk	Pinch of Salt
1 Egg	4 or 5 Slices of Bread

Beat together one egg, one cupful of milk, and a little salt. Dip slices of stale bread into this mixture,

and fry on a griddle in butter or pork fat. Serve hot with butter and maple syrup.

1 Cupful of Molasses	1 Teaspoonful of Ginger
1 Cupful of Sour Milk	1 Teaspoonful of Soda
$\frac{1}{2}$ Cupful of Butter or Lard	$\frac{1}{2}$ Teaspoonful of Salt

Stir the soda into the molasses until it foams, add sour milk, ginger, salt and melted butter. Last of all, add flour enough for quite a stiff batter, and bake. This makes one sheet.

### Huckleberry Cake

Pick over and wash and flour well one cupful of fresh huckleberries. Add these to the batter for soft gingerbread. Serve hot, with butter.

### Quick Graham Bread

1 Pint of Graham Meal	1 Teaspoonful of Soda
$\frac{1}{2}$ Cupful of Molasses	$\frac{1}{2}$ Teaspoonful of Salt

This way of boiling eggs, though so simple, is going out of fashion, unfortunately, as it makes a wonderful difference in the appearance of the egg when broken open, and above all, in its digestibility. Eggs should never be boiled in any other way for invalids.

### **To Dress Lobsters Cold**

Give it a gentle blow with a hammer, then with both hands turn back the shell and draw out the tail intact. Twist off the claws from the under side of the body and remove the body from the shell. Open and remove the stomach and sandbags. Open the tail in length, halfway through, on the under side, remove the black vein from the body to the end. Dress with parsley and serve.

### **Canned Cherries**

1 Quart of Cherries	1 Cupful of Water
1 Cupful of Sugar	

Pick over and wash the cherries. If they are to be used for sauce, can them whole; if to be used for pies and puddings, remove stones and use less water, as there will be juice enough to cook them in. Cook until tender and seal when boiling hot.

### Cherry Conserve

4 Pounds of Sugar	1 Lemon

Wash and stone the cherries. Wash and remove seeds from oranges and lemon. Put them through the meat-grinder or chop fine. Cook all together twenty minutes, or until thick. Put into tumblers and cover with paraffine.

### Preserved Citron

Pare the citron and cut into pieces one inch square. Cover with cold water, adding a pinch of salt. Next day throw off this water and cover with fresh water, this time adding a pinch of alum. Slice the lemons, removing every seed, and boil until tender. Boil the sugar and water together, skim, then put into the syrup citron and lemon. Boil until it looks rich and transparent. Skim out the fruit into jars or tumblers, boil down the syrup for ten or fifteen minutes, and pour over the fruit. If jars are used, fill to the brim and seal while hot. This can be made in the summer from watermelon-rind. Cut off all the pink of the melon, pare, and prepare as you would citron. It is really very nice.

### Currant Jelly

Pick currants from the stems and wash clean. Put them into a kettle with a very little water and cook for ten minutes. Strain through a flannel bag. Use one pint of juice to one pint of sugar. Boil the juice fifteen minutes, add sugar and boil five minutes. Pour into tumblers or jelly moulds, and when cold cover with paraffine.

1½ Pound of Raisins	

Pick the grapes from the stems, wash, and separate the pulps from the skins. Stew the pulps and press through a colander. Put the raisins and oranges through the meat grinder, after removing seeds. Cook all together except the nuts. Add these about ten minutes before removing from fire. Put into glasses and cover with paraffine. This makes eleven glasses.

### Grape Marmalade

When making grape-juice, use the grape which is left after straining, for marmalade. Press through a colander, measure and use the same amount of sugar. Cook until it thickens and put into tumblers. When cold, cover with paraffine.

### Grape Preserve

Pick from the stems and wash the amount of grapes desired. Squeeze the pulps from the skins. Put into a kettle with very little water and boil until the seeds loosen. Press through a colander. Put this with skins, weigh, and use three-fourths of a

pound of sugar, for every pound of fruit. Cook all together until the skins are tender, usually about an hour. Seal in glass jars.

### Orange Marmalade

1 Grapefruit

1 Whole Lemon

1 Whole Orange

Juice of Two Lemons

Juice of Two Oranges

Chop fruit fine or put through the grinder. Measure and put three times the amount of water. Let this stand till the next day. Boil ten minutes. Stand again till the next day. Measure and add equal amount of sugar. Boil until it jells. This will make eleven or twelve tumblerfuls. Pour into glasses while warm. When cold, pour over a thin coating of paraffine.

### Peach Marmalade

When preserving peaches or quinces, wipe them very clean before paring, and save the skins for marmalade. Cook in water enough to cover well and, when tender, press through a colander. Measure, and add the same amount of sugar. Boil half an hour, or until it thickens. Put into tumblers and cover with paraffine. This is nice for school sandwiches, or for filling for Washington pie or queen's pudding.

### To Can Peaches

1 Quart of Peaches                      2 Cupfuls of Water  
1 Cupful of Sugar

Be sure to have the jars perfectly clean and warm. Glass covers are always preferable. Make a syrup of the sugar and water. Boil this hard for five minutes. Set back on the stove and let it settle, then skim very thoroughly. Pare, cut in half, and remove the stones from the peaches. When the syrup comes to a boil, put in enough peaches to fill your jar, whatever the size. Boil until tender enough to pierce with a wisp. Take the fruit out carefully with a spoon and place in the jar. Fill the jar with the boiling syrup, being careful always to cant the jar as you pour it in. If you do this, the jar will never crack, as it is likely to do if held perfectly straight or upright. Always run around the inside of the jar with a silver knife, and you will have no trouble in keeping fruit. Seal while hot. The peaches may be canned whole, if preferred.

### Pickled Peaches

4 Pounds of Sugar                      1 Tablespoonful of All-  
1 Pint of Vinegar                      spice  
1 Tablespoonful of Cloves   Stick of Cinnamon

Boil the ingredients together for ten minutes be-

fore putting in the peaches. Cook as many peaches in this as possible, and have juice enough to fill up the jars. Tie the spices in a piece of cheese-cloth. Pears may be cooked in the same way.

### Ginger Pears

10 Pounds of Pears	6 Oranges
7 Pounds of Sugar	1 Box of Crystallized
4 Lemons	Ginger

Wipe pears clean and cut fine with sugar. Simmer an hour. Then add the lemons and oranges, seeded and cut fine, and the crystallized ginger. Let all boil together two or three hours.

### Preserved Pears

1 Quart of Pears	2 Cupfuls of Water
1 Cupful of Sugar	

Use pears which are just right to eat. Pare and drop into cold water, to prevent discoloring. Make a syrup of one cupful of sugar and two cupfuls of cold water, and boil the pears in this until you can stick a straw through them. Fill the jars with the fruit, all you can put in, then hold the jar slanting and fill with syrup to the very brim. Use whole pears, if preferred. If cut in halves, remove the core.

### Way to Pickle Pears

1 Pint of Vinegar	$\frac{1}{2}$ Tablespoonful of whole
3 Pounds of Sugar	Allspice
6 Pounds of Pears	1 Tablespoonful of whole
$\frac{1}{2}$ Tablespoonful of Cin- namon	Cloves

Boil pears until tender. Boil vinegar, sugar, and spices together fifteen minutes, then put in the boiled pears, and cook all together half an hour. These will be nicer if sealed in glass jars.

### To Preserve Pineapple

Peel the pineapple, remove the eyes and cut into small cubes. Weigh, and take three-fourths of a pound of sugar to one pound of fruit. Allow one cupful of water for each jar, and cook all together slowly until tender. Fill the jars. This is very nice for ice-cream or sherbet.

### Quince Jelly

Pare, core, and quarter the fruit, and boil in water enough to cover. When soft, take out the fruit and strain the syrup through a flannel bag, then return the syrup to the kettle and boil until perfectly clear, skimming constantly. Measure syrup, adding an equal quantity of sugar, and boil twenty minutes, removing the scum which rises to the sur-

face. Pour into tumblers or moulds and set aside to cool; then pour over the top a covering of paraffine.

### Quince Marmalade

Put the quinces, which were boiled in water for the jelly, in with the cores and skins. Cover with water and boil ten or fifteen minutes. Press all through a colander. Measure, and add the same amount of sugar. Set on the stove and boil fifteen minutes, being careful not to scorch. Put into tumblers and cover with paraffine.

### Quince Sauce

Peel, core, and cut into quarters the quinces. Boil in clear water until tender. Weigh the quinces before cooking, and put into the water in which they have been boiled three-fourths of a pound of sugar for every pound of quince. Boil five minutes and skim. Then put in the quinces and cook until of a dark amber color—for about an hour. As quinces are expensive, old-fashioned people used to put in one-fourth as much sweet apple or pear.

### Raspberry Jam, No. 1

Mash the berries, add equal parts of sugar, and let stand half an hour. Put on the stove in a kettle containing a half cupful of water, to prevent sticking. Boil until it thickens. Put into tumblers and cover

with paraffine. Blackberries and strawberries used in the same way are very nice.

### Raspberry Jam, No. 2

Mash the berries, and use two-thirds as much currant juice as you have berries. Measure, and add the same amount of sugar. Cook all together until it jells. Put into tumblers and cover with paraffine.

### To Keep Rhubarb Through the Winter

Fill preserve jars with cold water. Cut the rhubarb into small pieces, as you would for a pie, and drop them into the jars. As they fill, the water will overflow. When full, screw the tops on the jars and set away. The water excludes the air, and the fruit, treated in this way, will keep for months. When required for use drain off the water and cook in the usual way.

### Rhubarb Marmalade

5 Pounds of Rhubarb	1 Pound of Chopped Wal-
5 Pounds of Sugar	nuts
5 Lemons, Juice and	2 Teaspoonfuls of Ex-
Rind	tract of Jamaica Gin-
	ger

### Rhubarb Jam

6 Stalks of Rhubarb

1 Lemon

3 Oranges

4 Cupfuls of Sugar

Cook the rhubarb and rind and juice of the lemon and oranges together for twenty-five minutes. Put into tumblers and cover with paraffine.

### Spiced Fruit

6 Pounds of Fruit

1 Pint of Vinegar

4 Pounds of Sugar

For all kinds of spiced fruit use the above measurements, adding one tablespoonful each of cinnamon, allspice, and cloves, and cook until tender. Seal in glass jars.

## **APPENDIX**

## HOUSEHOLD HINTS OLD AND NEW FOR HOUSEKEEPERS YOUNG AND OLD

### To Save Confusion in the Home

“Plan your work, then work your plan.”

*Monday*—Wash, if you have it done in the house. If sent out, use that day for picking up and putting things in order, after the disorder of Sunday.

*Tuesday*—Iron.

*Wednesday*—Finish ironing and bake; wash kitchen floor.

*Thursday, Friday*—Sweep and dust, thoroughly.

*Saturday*—Bake, and prepare in every way possible, for the following day.

### Have in or Near Your Sink

A handle dish cloth.

A wire dish cloth.

A cake of scouring soap.

A small brush for cleaning vegetables.

These articles are indispensable. Also have two cloths, which must be kept perfectly clean.

One for washing dishes.

One for washing sink.

### **Homemade Shortening**

Do not throw away small pieces of fat from pork, lamb or steak. Put them on the stove, in a skillet or agate dish and cook them till there is nothing left, but scraps. Then pare a potato, wash clean, cut into thin slices and cook in the fat for a half hour to clarify it. Strain through a cloth. This will be good to fry doughnuts in and for all purposes, where shortening is needed, except for pie crust.

Pieces of fat, not fit for shortening can be saved in some old utensil and made into kitchen soap.

### **To Make Tea and Coffee**

Always use freshly boiled water. Do not boil more than three or four minutes. This is very important, in making a good cup of tea or coffee. Never use water which has stood in the teakettle over night.

### **A Use for Left-over Coffee**

Do not throw away the coffee you have left from breakfast. If you do not care for iced coffee for dinner, make a little coffee jelly, by the recipe on page 27.

### **Never Throw away Old Underclothes**

Keep them for housecleaning, for washing windows and for washing lamp chimneys. Old pieces of

calico, or flannel make good holders to use about the stove. Wash, boil and dry cleaning cloths when soiled, that they may be ready for use again.

### **That Leaky Hot-Water Bag**

Do not throw away an old hot-water bag because it leaks. Fasten over the leak, a strong piece of adhesive plaster. Fill the bag with sand or salt and cover with flannel. It will hold heat for a long time, and can be used instead of the water bottle.

### **To Keep your Hands White**

Keep a piece of lemon in your bathroom or kitchen. It will remove stains from the hands.

### **To Brown Flour**

Spread flour upon a tin pie plate, put it in a hot oven, and stir constantly, after it begins to brown, until it is all colored. Keep always on hand. It is good for coloring and thickening gravies.

### **Lemons and Fish**

Lemon juice makes a very grateful addition to all kinds of fish. Thin slices of lemon, with sprigs of parsley, around a platter of fish, makes a pretty garnish.

### **To Try out Lard**

If you want good sweet lard, buy from your butcher, leaf lard. Skin carefully, cut into small pieces and put it into a kettle or sauce pan. Pour in a half-cupful of water, to prevent burning, and cook slowly, until there is nothing left but scraps. Remove the scraps with a skimmer, salt it a little, and strain through a clean cloth, into tin pails. Be sure not to scorch it.

### **How to Keep Eggs**

In the summer, when eggs are cheap, buy a sufficient number of freshly laid ones to last through the winter.

Take one part of liquid glass, and nine parts of cold water which has been boiled, and mix thoroughly.

Put the eggs into a stone crock, and pour over them this mixture, having it come an inch above the eggs. The eggs will keep six months, if they are perfectly fresh when packed and will have no taste, as when put into lime water.

### **Save your Old Stockings**

Old stockings are fine for cleaning the range. Slip your hand into the foot and rub hard, or place an old whisk broom inside. It will make the sides and

front of the range clean and shiny. In fact, you will seldom need to use blacking on these parts.

### **When Washing Lamp Chimneys**

If you live in the country and use kerosene lamps, do not dread washing the chimneys. Make a good hot suds, then wash them in this, with a clean cloth kept for that purpose. Pour over them very hot or boiling water and dry with an old soft cloth. Twist a piece of brown paper or newspaper, into a cornucopia shape and place over the chimneys to protect from dust and flies.

### **To Remove Disagreeable Odors from the House**

Sprinkle fresh ground coffee, on a shovel of hot coals, or burn sugar on the shovel. This is an old-fashioned disinfectant, still good.

### **To Lengthen the Life of a Broom**

Your broom will last much longer and be made tough and pliable, by dipping for a minute or two, in a pail of boiling suds, once a week. A carpet will wear longer if swept with a broom treated in this way. Leave your broom bottom side up, or hang it.

### **To Prevent Mold on Top of Glasses of Jelly**

Melt paraffine and pour over the jelly after it is cold. No brandy, paper, or other covering is necessary.

### **To Clean Nickel Stove Trimmings**

Rub with kerosene and whiting, and polish with a dry cloth.

### **To Clean Zinc or Copper**

Wash with soap suds and powdered bristol brick. When perfectly dry, take a flannel cloth and dry powdered bristol or any good cleaning powder and polish. You will be pleased with the result. I have tried this for forty years.

### **How to Prevent Button Holes from Fraying**

When making button holes in serge or any material which frays, place a piece of lawn of two thicknesses, underneath and work through this.

Another way is to make four stitchings in the goods the length of the button hole. Cut between these, leaving two stitchings each side of the hole.

### **When Making a Silk Waist**

Stitch a crescent shaped piece of the same material as your waist under the arm. It will wear longer and when the outside wears out it looks neater than a patch. If the waist is lined, put this between the lining and the outside.

### **To Make Old Velvet Look New**

Turn hot flatirons bottom side up. Rest these on two pieces of wood, or hold in your lap. Put over

them a piece of wet cloth, then lay the velvet on this. Brush with a whisk broom. The steam from the wet cloth will raise the nap and take out the creases.

### **Onion Skins as a Dye**

If you wish for a bright yellow, save your onion skins. They will color white cloth a very bright yellow. This is a good color for braided rugs, such as people used to make.

### **To Remove Egg Stain from Silver**

Salt when applied dry, with a soft piece of flannel will remove the stain from silver, caused by eggs.

### **Put a Little Cornstarch in Salt Shakers**

This will prevent the salt from becoming too moist to shake out.

### **How to Color Lace Ecru**

If you wish for ecru lace and you have only a piece of white, dip it into cold tea or coffee, until you have the desired color.

### **To Keep Lettuce Crisp**

Put it into a paper bag and place right on the ice. It will keep a week in this way.

### **To Keep Celery**

Do not put it into water. Wrap it in a cloth, wet in cold water and place directly on the ice.

### **To Keep a Piece of Salt Pork Sweet**

Put it in a strong brine made of one quart of cold water, and two-thirds of a cup of salt.

### **Save Potato-Water**

Pare potatoes before boiling, and then save the water, to mix your yeast bread with.

### **A Use for the Vinegar Off Pickles**

When your pickles have been used from your glass jars, do not throw away the vinegar. Use it in your salad dressing. It is much better than plain vinegar because of the flavor.

### **Do not Allow a Child to Eat Fresh Snow**

This often looks clean and pure but fill a tumbler with it, cover to keep out the dust and then show it to the child, that he may see for himself, the dirt it contains.

### **When Making Hermits or Cookies**

Instead of rolling and cutting as usual, drop the dough into a large iron pan. The heat of the oven

melts them into one sheet. Cut them into squares or long narrow strips. It takes much less time, than the old way of rolling and cutting.

### **To Clean a Vinegar Cruet on the Inside**

Put into it shot, pebblestones, or beans. Fill it with a strong soap suds, and one teaspoonful of bread soda or ammonia. Let stand an hour, shake well and often. Rinse with clean water.

### **To Make Tough Meat, or a Fowl Tender**

Put one tablespoonful of vinegar, into the kettle while boiling.

### **To Remove Black Grease**

Rub patiently with ether. It will not leave a ring, like gasolene, and will remove every trace of the stain.

### **To Keep an Iron Sink from Rusting**

Wash with hot suds. When dry rub it well, with a cloth wet with kerosene. Do this three or four times a week and your sink will look well, all the time.

### **How to Add Salt to Hot Milk**

Salt will curdle new milk, so when making gravies, or puddings, put your salt into the flour, or with eggs

and sugar, to add when the milk boils. Use a double boiler for milk gravies and gruels.

### **To Soften Boots and Shoes**

Rub them with kerosene. Shoes will last longer, if rubbed over with drippings from roast lamb. Old-fashioned people always used mutton tallow on children's shoes.

### **A Way to Cook Chops**

Pork or lamb chops are very nice, if baked in a hot oven. Turn them as they brown. It saves the smoke in the room.

### **When Cooking Canned Corn**

Place it in a double boiler to prevent scorching.

### **Salted Almonds**

Shell the nuts and put into boiling water. When they have stood for fifteen or twenty minutes, the skin will slip off easily. When dry, mix a half-teaspoonful of olive oil or butter, and a quarter of a teaspoonful of salt, with a cupful of nut meats. Spread on a tin pan, and place in a hot oven. Bake fifteen or twenty minutes. Watch closely and stir several times, as they burn quickly. Treat peanuts in the same way.

### **Before Washing Colored Clothes**

It is wise to set the color first, by soaking in a strong solution of cold salt water (one cupful of salt to half a pail of water). Soak two hours.

### **To Remove Iron Rust from White Goods**

The old-fashioned way, still good, is to wet the place in lemon juice, sprinkle on it common table salt, and lay it in the sun. In these later days, there is on the market an iron rust soap, which removes the spot quickly, also an ink eradicator, sold by all druggists.

### **How to Make Starch**

Two tablespoonfuls of starch should be made into a smooth paste with four tablespoonfuls of cold water. Pour over this three pints of boiling water, stirring rapidly all the time. Starch the garments, while they are still wet. In the olden days, people made starch of flour in the same way, for linen and gingham dresses, as it was less expensive and thought to be just as good for colored clothes.

### **When you Go Away from Home for a Few Days**

Plan your meals before leaving. This simplifies matters for the one left in charge, and is often found to be of importance financially.

### **The Proper Way to Sweep a Room**

Dust the furniture and put it in another room. Dust bric-a-brac and put on the bed if you are sweeping a sleeping room, if another room put them on the table, or in an adjoining room. Brush the draperies, take down and lay on the bed or table. Cover these and bric-a-brac with a sheet. Wet a newspaper, tear into small pieces and spread on the rug or carpet. Now you are ready for sweeping. If the floor is carpeted, sweep all dirt to the center of the room. Sweep the corners with a small whisk broom. Move every piece of furniture lest there be dirt left underneath. Open the windows before sweeping. When the dust is settled take a pail of warm water, put in a tablespoonful of ammonia, then with a clean cloth wrung from this wipe the window glass, mirror and pictures; polish with dry cloth. Wipe all finger marks from doors and mop boards.

Now take a pail of clean water, with ammonia, and with a small scrubbing brush go over the rug or carpet, to remove dust and brighten the colors. Replace furniture, bric-a-brac and draperies and your room will be sweet and clean. With care, once in two or three weeks, will be often enough to do this.

### **When Baking Cup Custards**

Set them into a pan of hot water. When you remove from the oven, place them in a pan of cold water, to prevent longer cooking.

### **When Using Currants and Raisins**

Mix a little dry flour with currants and raisins before adding them to cakes or puddings. It will keep them from falling to the bottom.

### **Try Baking Beets, Instead of Boiling Them**

They are much sweeter. Three or four hours is necessary, according to size.

### **When Making Grape Juice or Jelly**

Before adding the sugar, strain through a flannel bag. It will be much clearer.

### **When Sewing Braid on a Dress**

Slip a piece of pasteboard three or four inches long, into the hem. You can sew more quickly, and your stitches will not show on the right side.

### **To Skin Beets**

When you remove beets from the kettle, plunge them into a dish of cold water. The skins will slip off easily with the hand. Never cut or pare beets before cooking.

### **A Fine Way to Keep Cut Roses**

Immerse them at night in a pail of cold water, blossoms down.

### **To Keep Carnations**

Put a little salt in the water, which should be changed each morning, and cut the stems a little each time.

### **When Pies are Ready to Bake**

Put little dabs of lard, on the top crust, then hold it under the faucet, letting cold water run over it.

### **A Way to Make Pies Brown and Shiny**

Just before putting a pie in the oven, brush over the top with milk, using a soft brush or a clean piece of cheese cloth.

### **When Threading a Needle**

Place a piece of white paper under the eye. You will be surprised at the ease, with which you can thread it.

### **Make your Own Baking Powder**

Get your grocer to weigh for you one pound of cream of tartar, and one-half pound of bread soda. Sift these together nine times in a flour sifter. Put in a tin can, and it is ready for use.

### **To Prevent Children from Losing Mittens**

Sew strongly to each mitten, four or five inches of narrow black ribbon (use a colored one if you prefer).

Sew the other end of ribbon to the coat sleeve. The child can remove mittens at any time without losing them and always know where they are.

### **Teach a Child to Hang up his Own Coat and Hat**

Have some hooks, low down in the closet or kitchen where a child can reach them easily, to be used only by himself.

### **To Keep your Own Umbrella**

Take a piece of narrow white tape, three or four inches long. With a glass pen, or a new clean steel one, and indelible ink, write your name upon it. Sew this to the inside of the umbrella.

### **To Wash a White Silk Waist, or a Baby's Bonnet**

Use cold water and white soap. Hot water will turn white silk yellow.

### **When Ironing Embroidery**

Place it right side down on a piece of soft flannel, ironing on the wrong side. If flannel is not at hand, try an old turkish towel.

### **To Wash Small Pieces of Lace**

Put in a horse radish bottle and pour over them, strong soap suds, good and hot, and shake well. Let

stand awhile and shake again. Rinse in clear, warm water, by shaking. Dry on a clean cloth in the sunshine.

### **Never Throw away Sour Milk**

It is excellent for graham bread, gingerbread, brown bread, griddle cakes, and doughnuts, also biscuit.

You can make a delicious cottage cheese of a very small quantity.

Set the milk on the back of the stove, in an agate dish. Let stand until the whey separates from the curd. Strain through a cloth, squeezing the curd dry. Put in a little salt, a small piece of butter, and a little sage if desired. Press into balls and serve.

### **Mark New Rubbers**

Take a pointed stick—a wooden skewer from the butcher's is best—dip it into ink and write the name, on the inside.

### **Economical Hints**

Save small pieces of soap in the bathroom, by placing in a cup or small box, until you have a cupful. Add a little water and boil a few minutes; when nearly cool, press with the hands, and you have a new cake of soap.

Do not throw away the white papers around cracker boxes. They are good to clean irons and

will save buying ironing wax. If irons are dirty put a good layer of salt on newspaper and rub the irons back and forth.

Save even the coupons on your soap wrappers. You can get a silver thimble for your mending bag with them, if nothing more.

Save your strong string, to wrap around packages going by parcel post. Also fold nicely for further use your clean wrapping papers. Make a bag of pretty cretonne, hang in the kitchen or cellar way, to keep the string and wrapping paper in. You will find it very convenient.

Do not throw away small pieces of bread. Save them for plum pudding, queen's pudding, or dressing for fish or fowl. If broken into small pieces and browned in a hot oven, it is very nice to eat with soups. Or, dry well, roll fine and keep in a glass jar, to be used for breaded pork chops, croquettes, or oysters.

### **To Mend Broken China**

Stir into a strong solution of gum arabic, plaster of Paris. Put this on each side of the china, holding together for a few minutes. Make it as thick as cream.

### **To Clean Old Jewelry**

Wash in warm water containing a little ammonia. If very dirty rub with a brush. This is very good also for cleaning hair brushes and combs.

### Dish Washing Made a Pleasure

First of all, remove all refuse from the dishes. Place them near the sink, large plates at the bottom, then the smaller ones, then saucers. Have a large pan full of very hot water. Make a good soap suds by using a soap shaker. Wash the tumblers and all glassware first, and wipe at once. Use a handle dish cloth (which can be bought for five cents), for these, as the water will be too hot for the hands. Wash the silver next. Have a large pan, in which to place the clean dishes, cups and bowls first. When all are washed pour over them boiling or very hot water, and wipe quickly. Pans and kettles come last. Always have a cake of sand soap or a can of cleaning powder, for scouring the pie plates and bottoms of kettles. It is very little work to keep baking tins and kitchen utensils in good condition, if washed perfectly clean each time they are used.

Wash the dish towels, at least once every day, and never use them for anything else. With clean hot water, clean towels, and plenty of soap dishwashing is made easy.

If you live in New England, your sink will be in front of a window. Be sure and plant just outside of this window nasturtiums, a bed of pansies, morning glories and for fall flowers, salvia. These bright blossoms will add to your pleasure while washing dishes.

### **A Space Saver**

If you are crowded for space in closet, kitchen or pantry buy a spiral spring, such as is used for sash curtains. Fasten the end pieces to the back of the door, and stretch the spring from end to end. You now have a fine place to hang towels, stockings or neckties, or if used in a pantry, to keep covers.

### **Another Space Saver**

If you have no closet in your room, get a board, nine inches wide, and three or four feet long. Put it in the most convenient place in your room on two brackets. Stain it the color of your woodwork. Screw into the under side of the board, wardrobe hooks. Now get a pretty piece of cretonne or denim, hem top and bottom, and tack with brass headed tacks to the shelf, having it long enough to come to the floor, and around the ends of the board. Use the top for a book shelf or hats.

### **If the Freshness of Eggs is Doubtful**

Break each one separately into a cup, before mixing together. Yolks and whites beaten separately, make a cake much lighter than when beaten together.

### **When Bread Cooks Too Quickly**

When your bread is browning on the outside, before it is cooked inside, put a clean piece of brown paper over it. This will prevent scorching.

### **To Remove the Odor of Onions**

Fill with cold water kettles and sauce pans in which they have been cooked adding a tablespoonful of bread soda and the same of ammonia. Let stand on the stove until it boils. Then wash in hot suds and rinse well. A pudding or bean pot, treated in this way, will wash easily. Wood ashes in the water will have the same effect.

### **Never Leave a Glass of Water or Medicine, Uncovered in a Room**

This is very *important*. Water will absorb all the gases, with which a room is filled from the respiration of those sleeping in the room.

### **Weights and Measures**

4 Teaspoonfuls equal 1 tablespoonful of liquid.

4 Tablespoonfuls equal half a gill.
